#### Outlook 2019

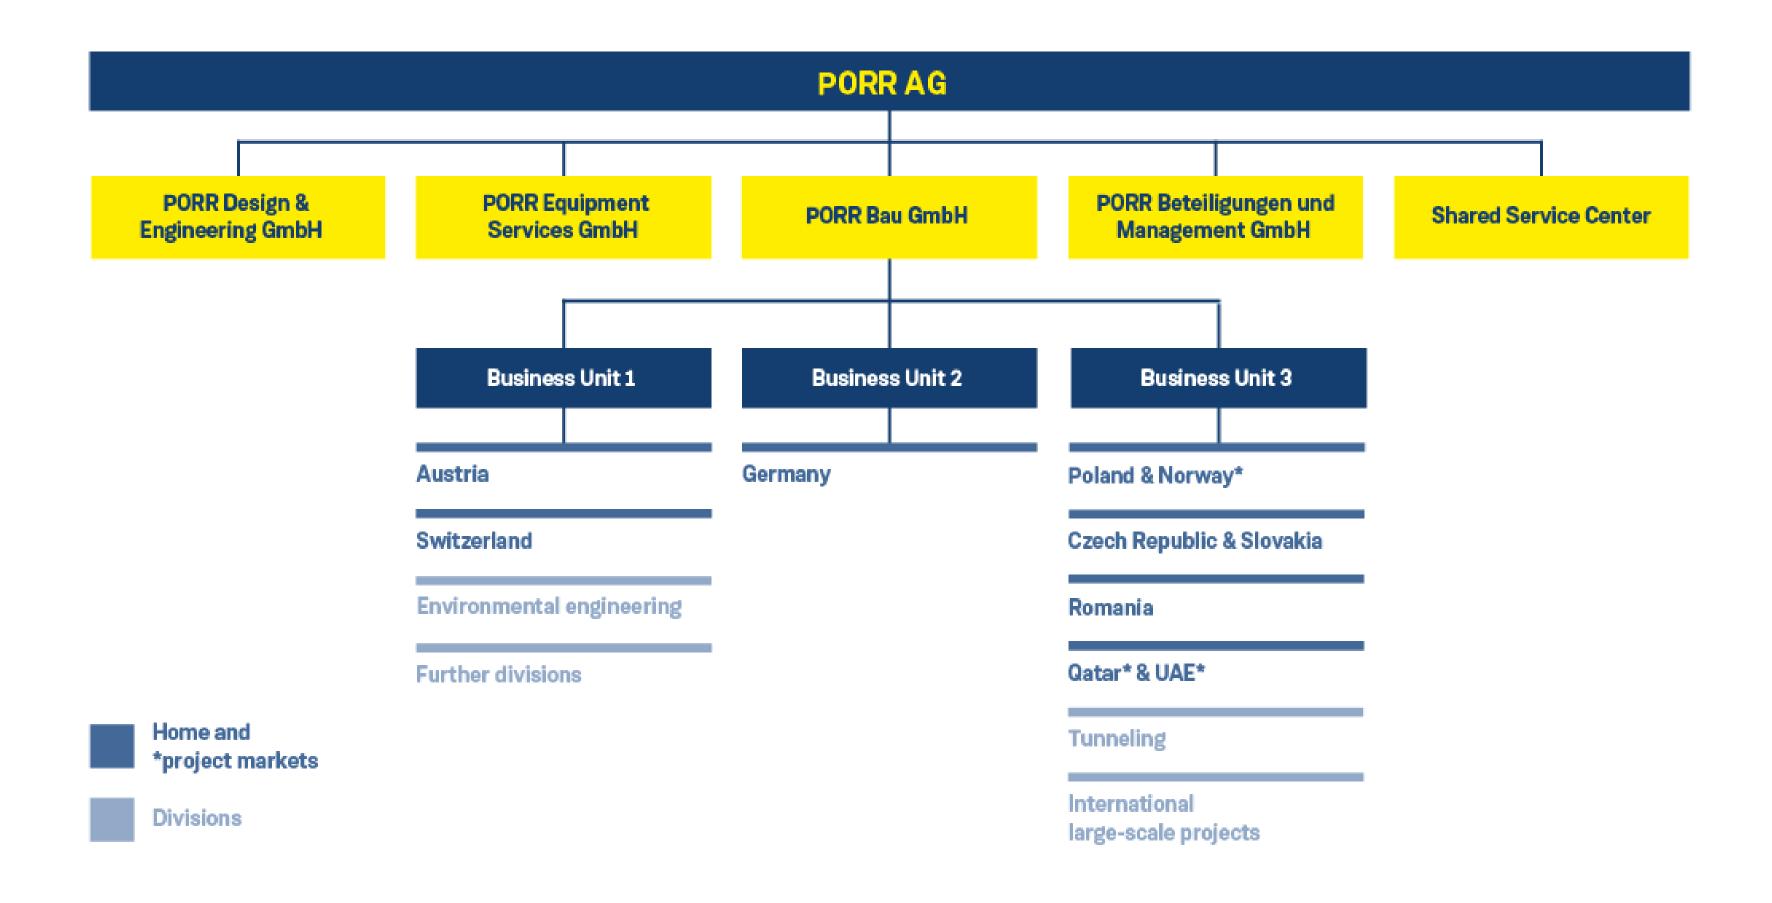

### About PORR

### Organizational Structure as of Aug 19

### #1 Industry Trends - Re-Imagine Construction

1

9.7bn people will live by mid-century.
By 2030 two-thirds of the world will live in cities.

Need for living areas.

Need for better infrastructure and living standards.

2

Impacts on eco- and social systems require sustainable construction.

Increasingly complex technical construction approaches. Climate change, power supply or ageing population matter.

3

Clients have changed - more informed, pro-active, using smart tools.

They want individual solutions, greater flexibility and visibility.

4

Connected world. Connected people.

One million new internet users came online every day in 2018. 14bn connected things to be in use in 2019; 25bn by 2021.
